Uniform Hazardous Waste Manifest

Federal law requires that any facility that generates more than 100 kilograms (220 pounds or approximately one-half of a 55-gallon drum) of hazardous waste (or 1 kilogram of acutely hazardous waste) in a calendar month use the completed Uniform Hazardous Waste Manifest when shipping its hazardous waste off-site.

Remember—you must use the Manifest of the state to which you are sending the waste. If that state does not have its own version of the Manifest, use the Manifest form of the state in which you generated the waste.

If neither the state to which you are sending your waste nor the state in which your waste was generated has its own Manifest form, you may order Manifest forms from commer-

cial companies that produce the federal version of the Manifest, or obtain copies from some hazardous waste treatment, storage, or disposal firms.

Items 1 through 20 (and 21 through 35 on the continuation sheet) constitute the federal portion of the Manifest form. Items A through K comprise the state portion of the form. When using a state form, follow the instructions provided with that form. If you are not using a state form, ask your state hazardous waste agency whether you must fill in items A through K. Contact your state hazardous waste agency, your hauler, and the facility that is to receive your waste shipment to be sure you complete all the necessary items on the Manifest.
